Interesting Facts & Hobbies

- I won the gold medal in the 1995 Junior Olympics for javelin throw.
- I traveled with a symphonic band to Munich, Germany and Bath and Bristol, England while playing the clarinet in the 1990s.
- I have traveled to 5 of the 7 continents: Africa, Asia, NA, SA, and Europe.
- I am the first physician in my family.
- I enjoy photography and fitness.

Why did you decide to join private practice?

I chose my practice because my medical school mission is to serve the underserved. I wanted to be in an area that does not have as much access to healthcare as major cities.

What is your favorite thing about private practice?

I am part of a practice that has a large scale and huge impact on a small, underserved city.

My mom and grandmother were both diagnosed with breast cancer. My mom is a 23-year survivor. Unfortunately, my grandmother succumbed to breast cancer due to delayed access to healthcare and poor patient education. I've seen the effects of both sides. Early detection saves lives.

If you had to give one piece of advice to trainees considering private practice vs academics what would it be?

Never underestimate your fullest potential. Leadership is more than just experience or seniority. It is innovation, creativity, influence, integrity, and accountability. Choose the environment that will give you a seat at the table.
